KFORCE REPORTS QUARTERLY REVENUE FROM CONTINUING OPERATIONS OF \$255.1 MILLION

- * Flex Revenue of \$235.2 Million, Up 5.0% Year Over Year
- * Net Income of \$8.7 Million, EPS of \$0.22
- * Completes Sale of Scientific and Per-Diem Nursing Businesses

TAMPA, Fla., July 29, 2008 (PRIME NEWSWIRE) -- Kforce Inc. (Nasdaq:KFRC), a provider of professional staffing services and solutions, today announced results for the second quarter of 2008. Revenue from continuing operations for the quarter ended June 30, 2008 was \$255.1 million compared to \$243.5 million for the quarter ended June 30, 2007, an increase of 4.8%, and compared to \$250.0 million for the quarter ended March 31, 2008, an increase of 2.0%. Net income for the quarter ended June 30, 2008 was \$8.7 million, or \$0.22 per share, compared to \$10.6 million for the quarter ended June 30, 2007, or \$0.25 per share, representing a year over year decline in net income and earnings per share of 17.7% and 12.0%, respectively. Net income for the quarter ended March 31, 2008 was \$7.2 million, or \$0.18 per share.

"The second quarter was a solid one for the Firm in which we achieved revenue from continuing operations of \$255.1 million and EPS of \$0.22 during a period where there were continued growing concerns about the macroeconomic environment," said David L. Dunkel, Chairman and CEO. Mr. Dunkel continued, "During the quarter we completed the sale of our Scientific and Per-Diem Nursing businesses, allowing us to focus our services in segments we believe offer the best prospects for growth. While there remains uncertainty about the economic cycle, the secular drivers for professional staffing continue to be strong. We continue to make adjustments to position Kforce to perform well in this uncertain environment and for continued strong performance in the future as the economy improves. We believe our diversified revenue stream and the demand environment for professional staffing and government solutions have positioned Kforce well for the future."

William L. Sanders, President, said, "Our vision is to be the Firm most respected by those we serve. A key aspect of our vision is building a Firm that delivers sustainable and

consistent revenue and earnings performance. We are extremely pleased that our quarterly revenues have now increased sequentially for ten straight quarters."

Mr. Sanders continued, "We are particularly pleased with the year over year flex revenue performance of our Health and Life Sciences ("HLS") and Government Solutions ("GS") segments, which achieved growth of 24.9% and 24.2%, respectively."

Mr. Sanders noted additional highlights from continuing operations for the second quarter:

- * Revenue per billing day of \$4.0 million in Q2 '08 improved 4.8% from \$3.8 million in Q2 '07,
- * Sequential improvement in gross margin percentage of 140 basis points,
- * Year over year revenue changes by segment for Q2 '08 were as follows: 24.9% increase for HLS; 24.2% increase for GS; 1.1% increase for Tech and a 5.3% decline for FA,
- * Flex revenue of \$235.2 million increased 5.0% from \$223.9 million in Q2 '07.

Joe Liberatore, Chief Financial Officer said, "We are pleased to report earnings results for Q2 '08 that were near the top end of our guidance. We believe the earnings results were driven by the efforts of the Firm in recent years to enhance our operating leverage as well as the extensive experience senior management has managing operations through different economic scenarios.

Second quarter results were impacted by the sale of our Scientific and Per Diem Nursing businesses. Income from discontinued operations, net of income taxes, which includes a pre-tax gain of \$5.9 million, totaled \$3.6 million, or \$0.09 cents per share. In addition, the disposition of these businesses triggered the acceleration of vesting of certain equity grants, which resulted in compensation expense of \$6.0 million being recognized in the quarter. This expense has been reflected as a component of continuing operations in selling, general and administrative expenses in our statements of operations.

Additional financial highlights for the second quarter included:

- * Cash flows from operations for the six months ended June 30, 2008 of \$38.1 million increased 39.9% from the comparable period in 2007,
- * Record Adjusted EBITDA per share for Q2 '08 of \$0.51 cents,
- * Total Firm bill rate for Q2 '08 increased 4.8% over Q2 '07,
- * The Firm reduced outstanding borrowings under the Credit Facility by \$20.0 million. At the end of Q2 '08 borrowings were \$33.0 million compared to \$53.0 million at the end of Q1 '08.
- * The Firm repurchased 0.9 million and 2.4 million shares of common stock during the three and six months ended June 30, 2008, respectively, at a total cost of \$7.8 million and \$20.8 million, respectively."

Mr. Liberatore continued, "Looking forward to the third quarter, we expect revenue may be in the \$247 million to \$253 million range. Total Firm earnings per share may be between 17 and 20 cents. Both the second and third quarters of 2008 reflect 64 billing days."

On Wednesday, July 30, 2008, Kforce will host a conference call to discuss these results. The call will begin at 8:30 a.m. Eastern Time. The dial-in number is 888-609-5693. [&]quot;Adjusted EBITDA," a non-GAAP financial measure, is defined as earnings before income from discontinued operations, interest, income taxes, depreciation and amortization and amortization of stock-based compensation expense. Adjusted EBITDA should not be considered a measure of financial performance under generally accepted accounting principles. Items excluded from Adjusted EBITDA are significant components in understanding and assessing financial performance.

"Net Income before Equity-Based Compensation Expense", a non-GAAP financial measure, is defined as income from continuing operations before compensation expense incurred in conjunction with awards accounted for under Statement of Financial Accounting Standards No. 123R "Share-Based Payment" ("SFAS 123R"). SFAS 123R requires Kforce to measure the cost of employee services received in exchange for an

equity based award based on the grant-date fair value of the award (with limited exceptions). That cost is recognized over the period in which the employee is required to provide service in exchange for the award, which is usually the vesting period.

Adjusted EBITDA and Net Income before Equity-Based Compensation Expense are key measures used by management to evaluate its operations and to provide useful information to investors. These measures should not be considered in isolation or as an alternative to net income, cash flows data or other financial statement information presented in the consolidated financial statements as indicators of financial performance or liquidity. These measurements are not determined in accordance with generally accepted accounting principles and are thus susceptible to varying calculations. The measures as presented may not be comparable to similarly titled measures of other companies.
